

Disabling the Trend Micro™ Anti-Spam Toolbar

from Trend Micro™ PC-cillin Internet Security 14

Begin by clicking the Summary button to display the Summary view as shown in Figure 1.

From the icon you will find in the right-lower corner of your screen by your computer time, or from the programs menu, OPEN the “Main Console” of your Internet Security 14.

Click on the “Mail” button, appearing along the left border of the console.

Click to open the “Anti-Spam” option, by clicking the icon shown to the left of “Anti spam”

Figure 1

This will open up the “Anti-Spam” options.

UN-check the option to “Turn on Anti-spam” so that it appears as shown in Figure 2.

After clearing the checkmark, click the “Back” to return the previous screen, or the “Summary” button to further configure PC-cillin to work with MissionBase. Or just exit the console.

DO NOT click the “Activate the Anti-Spam tool bar” option found at the bottom of this view. This will restart the Anit-spam, and your conflicts with MissionBase products.
